

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

Is there hard evidence that cell phone use interferes with navigational instruments? As a retire and frequent flyer this concerns me. I feel the introduction of cell phone use in the cabin might very well compromise flight attendants' ability to maintain order in an emergency. Cell phone use on the plane would definately cause me much distress. Most of my flights are more than three thousand miles. Hearing cell phone conversations would not make me feel comfortable.
Please leave the current rules in effect.

Sincerely,

DOLORES REINHARDT NILES
